1. Introduction

What is Bal Mandal & Sishu Mandal?

The Bal Mandal & Sishu Mandal module is a comprehensive children's wing management system designed for BAPS Jaipur to track and manage:

- **Sishu Mandal:** Younger children (LKG, UKG, 1st-4th standard)
- **Bal Mandal:** Older children (5th-8th standard)

Key Features

- ✓ **Automatic Grade Assignment** - System auto-assigns children to correct mandal based on their standard
- ✓ **Sampark Karyakarta (SK) Management** - Round-robin assignment for balanced workload
- ✓ **Event Attendance Tracking** - Regular and observer attendance
- ✓ **Hobby & Skills Tracking** - Monitor children's interests and talents
- ✓ **Yearly Promotion** - Bulk promote all students to next standard
- ✓ **8th Standard Transfer** - Automatic transfer to Yuvak Mandal after 8th
- ✓ **Notes & History** - Collaborative notes with timestamps
- ✓ **Dashboard Analytics** - 10 key metrics at a glance
- ✓ **VCF Export** - Export contacts for phone with custom formatting

2. System Overview

Program Structure

```

Bal Mandal Program
├── Sishu Mandal (LKG, UKG, 1st-4th)
│   ├── Sampark Karyakarta (SK)
│   ├── Nirikshak (Observer)
│   └── Children
└── Bal Mandal (5th-8th)
    ├── Sanchalak (Coordinator)
    ├── Sampark Karyakarta (SK)
    ├── Nirikshak (Observer)
    ├── Sant (Observer)
    └── Children
  
```

Hierarchy Flow

1. **Nirdeshak** (Director) - Overall program oversight
2. **Sanchalak** (Coordinator) - Day-to-day management
3. **Nirikshak** (Inspector) - Quality monitoring
4. **Sampark Karyakarta (SK)** - Direct contact with children/families
5. **Sant** (Saint) - Observer role at events

3. User Roles & Permissions

Admin

Full system access

Can do: - ✓ View and edit all data across all areas and mandals - ✓ Create/edit/delete volunteers, roles, areas, mandals - ✓ Generate and assign batches - ✓ Run standard promotion workflow - ✓ Access all reports and exports - ✓ Configure system settings - ✓ View Bal Mandal dashboard - ✓ Create and manage events

Cannot do: - X None (full access)

Dashboard Access: All metrics, all areas

Nirdeshak (Director)

Program director with full Bal Mandal access

Can do: - ✓ View all Bal Mandal and Sishu Mandal contacts in assigned areas - ✓ View Bal Mandal dashboard with metrics - ✓ Generate batches for SK assignment - ✓ Export VCF contacts - ✓ Run yearly standard promotion workflow (8th → Yuvak transfer) - ✓ Create and manage Bal Mandal events - ✓ Mark attendance (regular and observer) - ✓ Add/edit notes on contacts - ✓ View all attendance history

Cannot do: - X Edit system configuration (areas, mandals, roles) - X Manage volunteers (except viewing) - X Access admin tools

Dashboard Access: Full dashboard with all 10 metrics

Sanchalak (Coordinator)

Day-to-day program management

Can do: - ✓ View all Bal Mandal and Sishu Mandal contacts in assigned areas - ✓ View Bal Mandal dashboard - ✓ Add/edit/delete contacts - ✓ Create and manage events - ✓ Mark

attendance - ✓ Add notes on contacts - ✓ Export VCF contacts - ✓ View batch assignments

Cannot do: - X Generate new batches - X Run standard promotion - X Manage volunteers or system settings

Dashboard Access: Full dashboard, filtered to assigned areas

Nirikshak (Inspector/Observer)

Quality monitoring and observation

Can do: - ✓ View all Bal Mandal and Sishu Mandal contacts in assigned areas - ✓ View Bal Mandal dashboard - ✓ Mark own attendance as observer at events - ✓ Add notes on contacts - ✓ View attendance history

Cannot do: - X Add/edit/delete contacts - X Create events - X Mark regular attendance for children - X Generate batches - X Export data

Dashboard Access: Read-only dashboard

Sampark Karyakarta (SK)

Direct contact management with assigned children

Can do: - ✓ View assigned contacts only (children assigned to them) - ✓ View Bal Mandal dashboard (limited to own assignments) - ✓ Add notes on assigned contacts - ✓ Mark attendance for assigned children at events - ✓ View attendance history for assigned children - ✓ Update contact details (mobile, address, etc.)

Cannot do: - X View contacts not assigned to them - X Create/delete contacts - X Create events - X Generate batches - X Export data beyond own assignments

Dashboard Access: Limited to own assigned contacts

Sant (Saint/Observer)

Observer role at events

Can do: - ✓ View Bal Mandal event schedule - ✓ Mark own attendance as observer at events - ✓ View event details

Cannot do: - X View contact details - X Mark regular attendance - X Access dashboard - X Add notes - X Manage any data

Dashboard Access: None (schedule view only)

4. Getting Started

First-Time Setup (Admin Only)

Step 1: Create Sishu Mandal Document

Before using the system, you need to create the Sishu Mandal in Firestore.

Option A: Using Script (Recommended)

```
node scripts/create-sishu-mandal.js
```

Option B: Manual Creation 1. Open Firebase Console → Firestore Database 2. Go to `mandals` collection 3. Add document with these fields: - `name` : "Sishu Mandal" - `code` : "SHM" - `gender` : "Male" - `fields` : (map with all fields set to `true`)

Step 2: Enable Fields for Mandals

1. Log in as **Admin**
2. Navigate to **Admin** → **Areas & Mandals**
3. Scroll to **Mandals** section
4. For **Bal Mandal**, enable these checkboxes:
 5. ☒ Study
 6. ☒ Skill
 7. ☒ Standard (LKG/UKG/1st-8th)
 8. ☒ Hobby
9. ☒ Sampark Karyakarta
10. Repeat for **Sishu Mandal**

Quick Method: Click "**Ask everything**" button for each mandal to enable all fields at once.

Step 3: Create Volunteer Roles

1. Go to **Admin** → **Roles**
2. Create these roles if they don't exist:
3. **Nirdeshak** (Program: Bal Mandal)
4. **Sanchalak** (Program: Bal Mandal)
5. **Nirikshak** (Program: Bal Mandal)
6. **Sampark Karyakarta** (Program: Bal Mandal)
7. **Sant** (Program: Bal Mandal)
8. For each role, assign appropriate permissions:

Nirdeshak Permissions: - ✓ manage_events - ✓ view_all_contacts - ✓ edit_contacts - ✓ generate_batches - ✓ assign_batches

Sanchalak Permissions: - ✓ manage_events - ✓ view_all_contacts - ✓ edit_contacts

Nirikshak Permissions: - ✓ view_all_contacts - ✓ manage_events (for observer attendance)

Sampark Karyakarta Permissions: - ✓ view_assigned_contacts - ✓ edit_contacts

Sant Permissions: - ✓ view_padhramani (for schedule access)

Step 4: Create Volunteers

1. Go to **Admin** → **Volunteers**
2. Click "**Add Volunteer**" button
3. Fill in volunteer details:
4. Name (required)
5. Mobile number (required, 10 digits)
6. Role (select from dropdown)
7. **Program:** Select "Bal Mandal"
8. Assigned Areas (select one or more areas)
9. Email (optional)
10. Status: Active
11. Click **Save**

Important: The "Program" field distinguishes Bal Mandal volunteers from Yuvak volunteers. Make sure to select "Bal Mandal" for all children's wing staff.

Step 5: Create Areas (if not already created)

1. Go to **Admin** → **Areas & Mandals**
2. In **Areas** section, click **"Add Area"**
3. Enter:
4. Area Name (e.g., "Mansarovar", "Vaishali Nagar")
5. Area Code (e.g., "MS", "VN")
6. Click **Save**

Step 6: Create Sub-Areas (Optional)

Sub-areas help divide large areas into smaller zones.

1. In **Areas** section, find the parent area
2. Click **"Add Sub-Area"**
3. Enter sub-area name
4. Click **Save**

5. Managing Contacts

Adding a New Child

1. Navigate to **Contacts** page
2. Click **"Add Contact"** button
3. Fill in the form:

Required Fields: - **Mandal:** Select "Bal Mandal" or "Sishu Mandal" (will auto-change based on standard) - **Full Name:** Child's name (e.g., "Ravi Patel") - **Mobile Number:** 10-digit number (parent/guardian number)

Optional Fields (if enabled for mandal): - **Address:** Full address - **Date of Birth:** Child's birth date - **Area:** Select area (e.g., Mansarovar) - **Sub-Area:** Select sub-area if applicable - **Study:** Current school/education details - **Skill:** Special skills (e.g., "Singing, tabla")

Bal Mandal Specific Fields: - **Standard:** Select from dropdown (LKG, UKG, 1st-8th) - *Auto-assignment:* LKG/UKG/1st-4th → Sishu Mandal - *Auto-assignment:* 5th-8th → Bal

Mandal - **Hobby**: Multi-select dropdown (hold Ctrl/Cmd to select multiple) - Sports, Music, Dance, Drawing, Reading, Cricket, Football, Singing, Cooking, Technology, Photography, Yoga, Storytelling, Arts & Crafts, Gaming - Select "Other" and type custom hobby in text field - **Sampark Karyakarta**: - Type name to search volunteers - Select from autocomplete list (mobile auto-fills) - Or type name manually

Photo Upload: - Click "Upload Photo" button - Select image file - Or check "Add photo later" to mark as pending

Follow-up Calling: - ☒ On the follow-up calling list (default: checked) - Uncheck to exclude from weekly batch generation

1. Click "**Add Member**" button

Result: Contact is saved and appears in contacts list. Mandal is automatically set based on selected standard.

Editing an Existing Child

1. Go to **Contacts** page or **Individual Detail Page**
2. Click **Edit** button (pencil icon)
3. Modify fields as needed
4. Click "**Save Changes**"

Note: If you change the standard, the mandal will auto-update: - Change from 4th to 5th → Moves from Sishu to Bal Mandal - Change from 5th to 4th → Moves from Bal to Sishu Mandal

Adding Notes to a Contact

Notes help track observations, incidents, or important information about a child.

1. Open **Individual Detail Page** (click on contact name)
2. Scroll to **Notes** panel (below Attendance History)
3. Type your note in the text box
4. Click "**Add Note**"

Result: Note is prepended with timestamp and your volunteer name:

[02/09/2026, 10:30 AM - Rajesh Kumar]

Child showed excellent participation in today's sabha.

[01/09/2026, 06:15 PM - Priya Sharma]

Spoke with parents about upcoming event.

Who Can Add Notes: - Nirdeshak, Sanchalak, Nirikshak, SK (on assigned contacts), Admin

Searching & Filtering Contacts

Search Bar: 1. Type child's name or mobile number in search box at top 2. Results appear instantly

Filter by Mandal: 1. Click **Mandal** dropdown 2. Select "Bal Mandal" or "Sishu Mandal" 3. List filters to show only selected mandal

Filter by Standard: 1. Click **Standard** dropdown 2. Select standard (LKG, UKG, 1st-8th) 3. List filters to show only that standard

Filter by Area: 1. Click **Area** dropdown 2. Select area 3. List filters to assigned area contacts

Combined Filters: You can combine multiple filters (e.g., Area: Mansarovar + Standard: 5th)

6. Bal Mandal Dashboard

Accessing the Dashboard

1. Click "**Bal Mandal**" in sidebar navigation
2. Dashboard loads with 10 key metrics

Who Can Access: - Admin (all areas) - Nirdeshak (assigned areas) - Sanchalak (assigned areas) - Nirikshak (assigned areas, read-only) - SK (own assigned contacts only)

Dashboard Metrics Explained

1. Total Contacts

What it shows: Total number of children in Bal + Sishu Mandal

Split: Shows breakdown (e.g., "156 total (92 Bal / 64 Sishu)")

Use case: Monitor program growth month-over-month

2. Standard Breakdown

What it shows: Grid showing count per standard (LKG-8th)

Example:

LKG: 12	UKG: 15		
1st: 18	2nd: 20	3rd: 14	4th: 16
5th: 22	6th: 20	7th: 18	8th: 12

Use case: Identify which standards need more attention or resources

3. Unassigned Standard

What it shows: Number of contacts without a standard selected

Alert: Shows in orange if count > 0

Action: Edit contacts to assign proper standard

4. SK Coverage

What it shows: Percentage of children assigned to a Sampark Karyakarta

Example: "85% (133/156 assigned)"

Target: Aim for 100% coverage

Action: Use batch generator to auto-assign remaining contacts

5. Promotion Ready

What it shows: Number of 8th standard students ready for Yuvak transfer

Use case: Plan yearly promotion event

Action: Go to Standard Promotion page to execute bulk transfer

6. Average Attendance

What it shows: Average attendance rate across recent events

Calculation: (Total present / Total events) × 100

Example: "78% average"

Use case: Track engagement trends

7. Mobile Coverage

What it shows: Percentage of contacts with mobile number on file

Example: "95% have mobile"

Use case: Ensure you can reach all families

8. Notes Activity

What it shows: Number of contacts with notes added in last 30 days

Example: "42 contacts with recent notes"

Use case: Monitor SK engagement with families

9. Upcoming Events

What it shows: Next 3 scheduled Bal Mandal events

Details: Date, time, location

Action: Click event to view details or mark attendance

10. Recent Attendance

What it shows: Last 5 events with attendance counts

Example: "Sabha - 02/09/2026 - 45/60 present (75%)"

Use case: Spot attendance drop trends

Area Filter

Location: Top-right dropdown on dashboard

Options: "All Areas" or specific area (e.g., "Mansarovar")

Effect: All 10 metrics update to show only selected area data

Export Functions

VCF Export (Phone Contacts)

1. Click "**Export VCF**" button on dashboard
2. Modal opens with options:
3. **Prefix**: Add before name (None/Area/Sub-Area/Mandal)
4. **Suffix**: Add after name (None/Area/Sub-Area/Mandal)
5. Click "**Generate VCF**"
6. File downloads: `bal-mandal-contacts.vcf`
7. Import to phone contacts app

Example Output:

```
Prefix: Area, Suffix: Mandal  
Result: "Mansarovar Ravi Patel Bal Mandal"
```

Use case: SK volunteers can import assigned contacts to phone for easy calling

Batch Generator

Generate sampark batches with automatic SK assignment.

1. Click "**Generate Batches**" button on dashboard
2. Select **Area**
3. Click "**Preview**"
4. System shows:
5. Number of batches to be created
6. Unassigned contacts count
7. SK assignment distribution (round-robin)
5. Click "**Generate**"
8. System creates batches and assigns contacts to SKs using round-robin

Round-Robin Logic: - System counts current assigned contacts per SK - Assigns new batch to SK with lowest contact count - Ensures balanced workload distribution

Result: Batches created, contacts assigned, SKs can see their assignments in "My Contacts"

7. Events & Attendance

Creating a Bal Mandal Event

1. Navigate to **Events** page
2. Click "**Create Event**" button
3. Fill in event details:

Required Fields: - **Event Name:** (e.g., "Sunday Sabha", "Bal Din Celebration") - **Event Type:** Select "Sabha", "Festival", "Training", "Meeting", or "Other" - **Mandal:** Select "Bal Mandal" or "Sishu Mandal" - **Date:** Event date - **Time:** Start time - **Area:** Select area (filters which children can attend)

Optional Fields: - **Location:** Venue address - **Description:** Event details - **Speaker:** Type name (autocomplete from past speakers) - for Yuvak Sabha only - **Duration:** Free number input in minutes (for Yuvak Sabha only)

1. Click "**Create Event**"

Result: Event appears in Events list and on Bal Mandal dashboard

Marking Attendance

Regular Attendance (Children)

1. Open event detail page
2. **Attendance Panel** shows list of children from selected area/mandal
3. Two methods to mark attendance:

Method A: Click Individual Names - Click on child's name or card - Checkmark appears when marked present - Click again to unmark

Method B: Search & Mark - Use search box at top of attendance panel - Type child's name - Click to mark present

1. Attendance saves automatically

Who Can Mark: Nirdeshak, Sanchalak, SK (for assigned contacts)

Observer Attendance

Observer attendance tracks Nirikshak and Sant volunteers who attend events.

1. Scroll to **Observer Attendance Panel** (below regular attendance)
2. Panel shows:
3. All Nirikshak volunteers (Program: Bal Mandal)
4. All Sant volunteers (Program: Bal Mandal)
5. Click volunteer name to mark present
6. Green checkmark appears when marked

Storage: Observer attendance stored in subcollection

```
events/{eventId}/observerAttendance/{volunteerId}
```

Who Can Mark: Nirdeshak, Sanchalak, Admin

Use Case: Track which observers monitored the event for quality assurance

Viewing Attendance History

For a Specific Child: 1. Open **Individual Detail Page** 2. Scroll to **Attendance History** panel 3. View list of events attended with dates 4. See attendance percentage

For an Event: 1. Open **Event Detail Page** 2. View attendance count (e.g., "45/60 present - 75%") 3. See list of present/absent children

8. Batch Management

Understanding Batches

What is a Batch? A batch is a group of contacts assigned to a Sampark Karyakarta (SK) for follow-up calling.

Batch Components: - Area (e.g., Mansarovar) - Mandal (Bal Mandal or Sishu Mandal) - Assigned SK name and mobile - List of contact IDs - Creation timestamp

Generating Batches

Automatic SK Assignment:

1. Go to **Bal Mandal Dashboard**
2. Click "**Generate Batches**" button
3. Select **Area** from dropdown
4. Click "**Preview**"

Preview Shows: - Total contacts in selected area - Number of batches to create - SK assignment distribution - Unassigned contacts count

1. Review preview
2. Click "**Generate Batches**"

System Process: 1. Loads all active SK volunteers in selected area (Program: Bal Mandal, roleKey: 'sk') 2. Counts existing assigned contacts per SK 3. Creates batches and assigns to SK with lowest contact count (round-robin) 4. Updates `samparkKaryakartaName` and `samparkKaryakartaNumber` on contacts 5. Creates batch documents in Firestore

Batch Size: System automatically determines optimal batch size (typically 15-20 contacts per batch)

Result: SKs can now see their assigned contacts in "My Contacts" page

Viewing Assigned Batches

For SK: 1. Click "**My Contacts**" in sidebar 2. View list of assigned children 3. Click contact to see details, add notes, view history

For Admin/Nirdeshak/Sanchalak: 1. Go to **Admin** → **Batches** (if permission enabled) 2. View all batches with filters: - Area - Mandal - Assigned SK - Date range

Editing Batch Assignments

Reassign a Contact to Different SK:

1. Open **Individual Detail Page**
2. Click **Edit** button
3. Change **Sampark Karyakarta** field:

4. Search for new SK name
5. Select from dropdown
6. Click "**Save Changes**"

Result: Contact moves from old SK to new SK's "My Contacts" list

9. Standard Promotion Workflow

Overview

Once per year (typically at academic year end), all children are promoted to the next standard. 8th standard students are transferred to Yuvak Mandal.

Access: Nirdeshak and Admin only

Path: Bal Mandal → Standard Promotion

Running Standard Promotion

IMPORTANT: This is a bulk operation. **BACKUP** your Firestore database before proceeding.

1. Navigate to **Bal Mandal → Standard Promotion**
2. Page shows preview of all promotions grouped by current standard:

Preview Table:

Current Standard	Count	Next Standard	Action
LKG	12	UKG	Promote
UKG	15	1st	Promote
1st	18	2nd	Promote
2nd	20	3rd	Promote
3rd	14	4th	Promote
4th	16	5th	Promote (→ Bal Mandal)
5th	22	6th	Promote
6th	20	7th	Promote
7th	18	8th	Promote
8th	12	9th	Transfer to Yuvak Mandal

1. Click **"Preview Transfer Report"** to download CSV with:

2. Student name
3. Current standard
4. Next standard
5. Mandal change (if any)

6. Transfer status (for 8th std)

7. Review CSV file carefully

8. Click **"Execute Standard Promotion"** button

Confirmation Dialog:

⚠ This will promote ALL students to next standard and transfer 8th standard students to Yuvak Mandal.

This action creates a new commit in the database.
You should have a backup before proceeding.

Are you sure you want to continue?

1. Click **"Yes, Execute Promotion"**

System Process: - Uses `writeBatch` for atomic updates - Respects `WRITE_BATCH_LIMIT = 450` (commits in chunks if needed) - For LKG-7th: Updates `standard` field to next value - For 8th standard students: - Updates `standard` to "9th" - Changes `mandal` from "Bal Mandal" to "Yuvak Mandal" - Adds `transferredFromBalMandal: true` - Adds

`transferredAt: serverTimestamp()` - Copies `notes` to `balMandalHistory` field for preservation - Commits all changes in batches

1. Success message appears
2. Page refreshes to show updated counts

Result: All children promoted. 8th standard students now appear in Yuvak Mandal contacts.

Post-Promotion Tasks

1. **Verify Transfer:**

2. Go to Contacts page
3. Filter by "Yuvak Mandal"
4. Confirm 8th standard students appear with new standard "9th"

5. **Re-assign SKs if needed:**

6. New 5th standard students (promoted from Sishu) now in Bal Mandal
7. May need to generate new batches for balanced assignment

8. **Update Event Targeting:**

9. Future events should target correct standards
 10. 9th standard (ex-8th) no longer appear in Bal Mandal event attendance
-

10. Reports & Exports

VCF Export (Detailed)

Purpose: Export contacts as vCard format for importing to phone contacts app.

Access: Bal Mandal Dashboard → "Export VCF" button

Options:

1. **Prefix Dropdown:**
2. None (default)

3. Area name (e.g., "Mansarovar Ravi Patel")
4. Sub-Area name (e.g., "Zone A Ravi Patel")
5. Mandal name (e.g., "Bal Mandal Ravi Patel")

6. Suffix Dropdown:

7. None (default)
8. Area name (e.g., "Ravi Patel Mansarovar")
9. Sub-Area name (e.g., "Ravi Patel Zone A")
10. Mandal name (e.g., "Ravi Patel Bal Mandal")

Example Combinations:

Prefix: Area, Suffix: Mandal
Result: "Mansarovar Ravi Patel Bal Mandal"

Prefix: None, Suffix: Area
Result: "Ravi Patel Mansarovar"

Prefix: Mandal, Suffix: None
Result: "Bal Mandal Ravi Patel"

Generated vCard Format:

```
BEGIN:VCARD
VERSION:3.0
FN:Mansarovar Ravi Patel Bal Mandal
N:Ravi Patel;;;
TEL;TYPE=CELL:9876543210
ADR;;;123 BAPS Street, Mansarovar;;;
ORG:Bal Mandal
END:VCARD
```

File Output: bal-mandal-contacts.vcf

Import to Phone: - iPhone: Open file → Import to Contacts - Android: Contacts app → Import → Select VCF file

CSV Exports

Standard Breakdown Report: 1. Go to Bal Mandal Dashboard 2. View Standard Breakdown grid 3. Click "**Export CSV**" (if available) 4. Downloads spreadsheet with: - Standard - Count - Percentage - Assigned SK count - Unassigned count

Attendance Report: 1. Go to Events page 2. Select event 3. Click "**Export Attendance**" 4. Downloads CSV with: - Child name - Mobile - Area - Standard - Attendance status (Present/Absent) - SK assigned

Dashboard Snapshot

Print/Save Dashboard: 1. Open Bal Mandal Dashboard 2. Select area filter (or "All Areas") 3. Use browser Print function (Ctrl+P / Cmd+P) 4. Select "Save as PDF" 5. PDF includes all 10 metrics with current values

Use Case: Monthly reports for Nirdeshak review

11. Admin Configuration

Creating a New Role

1. Go to **Admin** → **Roles**
2. Click "**Add Role**" button
3. Fill in role details:**Required Fields:**
4. **Role Name:** (e.g., "Bal Mandal Coordinator")
5. **Role Key:** Unique identifier (e.g., "bal_coordinator")
6. **Program:** Select "Bal Mandal"

Permissions (check boxes):

Core Permissions: - ☒ view_all_contacts - See all contacts in assigned areas - ☒ view_assigned_contacts - See only assigned contacts - ☒ edit_contacts - Add/edit/delete contacts - ☒ view_households - View household groupings - ☒ manage_events - Create/edit events - ☒ generate_batches - Create new sampark batches - ☒ assign_batches - Assign batches to volunteers - ☒ manage_users - Create/edit volunteers - ☒ manage_roles - Create/edit roles - ☒ view_padhramani - View padhramani schedule (for Sant role)

Example Role Configurations:

Bal Mandal Nirdeshak:

```
Name: Bal Mandal Director
Role Key: bal_nirdeshak
Program: Bal Mandal
Permissions:
  ✓ view_all_contacts
  ✓ edit_contacts
  ✓ manage_events
  ✓ generate_batches
  ✓ assign_batches
```

Bal Mandal SK:

```
Name: Bal Mandal Sampark Karyakarta
Role Key: bal_sk
Program: Bal Mandal
Permissions:
  ✓ view_assigned_contacts
  ✓ edit_contacts
  ✓ manage_events (for attendance marking)
```

1. Click "**Save Role**"

Result: Role appears in dropdown when creating volunteers

Creating a New Area

1. Go to **Admin** → **Areas & Mandals**
2. In **Areas** section, click "**Add Area**"
3. Enter area details:

Required Fields: - **Area Name:** Full name (e.g., "Mansarovar") - **Area Code:** 2-3 letter code (e.g., "MS")

Optional Fields: - **Description:** Additional details

1. Click "**Save**"

Result: Area appears in dropdowns throughout the system

Creating Sub-Areas

Sub-areas help divide large geographic areas into smaller zones.

1. In **Areas** section, find parent area row
2. Click **"Add Sub-Area"** button in that row
3. Enter sub-area name (e.g., "Sector 1", "Zone A")
4. Click **"Save"**

Example Structure:

```
Mansarovar (Area)
├─ Sector 1 (Sub-Area)
├─ Sector 2 (Sub-Area)
└─ Sector 3 (Sub-Area)
```

```
Vaishali Nagar (Area)
├─ East Zone (Sub-Area)
└─ West Zone (Sub-Area)
```

Result: Sub-areas appear in contact form when parent area is selected

Configuring Mandal Fields

Control which fields appear in the contact form for each mandal.

1. Go to **Admin** → **Areas & Mandals**
2. Scroll to **Mandals** section
3. Find mandal row (e.g., "Bal Mandal")
4. **Field Checkboxes** show available fields:

Available Fields: - ☒ Photo - Photo upload - ☒ DOB - Date of birth - ☒ Anniversary - Marriage anniversary - ☒ Relation - Relationship to household head - ☒ Is Primary - Primary contact in household - ☒ Area - Area/sub-area selection - ☒ Study - Education details - ☒ Profession - Occupation (for adults) - ☒ Skill - Special skills - ☒ Sampark Karyakarta - SK assignment - ☒ Standard - LKG-8th (for children) - ☒ Hobby - Interests/hobbies

1. Check/uncheck boxes to enable/disable fields
2. Changes save automatically

Quick Enable All: - Click "**Ask everything**" button to enable all fields at once

Result: When adding a contact under this mandal, only enabled fields appear in the form

Managing Volunteers

Creating a Volunteer

1. Go to **Admin** → **Volunteers**
2. Click "**Add Volunteer**" button
3. Fill in volunteer form:

Required Fields: - **Full Name:** (e.g., "Rajesh Kumar") - **Mobile Number:** 10-digit number (e.g., 9876543210) - **Role:** Select from dropdown (e.g., "Sampark Karyakarta") - **Program:** Select "Bal Mandal" or "Yuvak" - **Assigned Areas:** Select one or more areas (hold Ctrl/Cmd for multiple)

Optional Fields: - **Email:** Email address - **Address:** Full address - **Photo:** Upload volunteer photo - **Notes:** Internal notes about volunteer

Status: - ☒ Active (check to mark volunteer as active) - Inactive volunteers don't appear in assignment dropdowns

1. Click "**Save Volunteer**"

Result: Volunteer can now log in and access system based on role permissions

Editing a Volunteer

1. Go to **Admin** → **Volunteers**
2. Find volunteer in list (use search box)
3. Click **Edit** button (pencil icon)
4. Modify fields as needed
5. Click "**Save Changes**"

Common Edits: - Change assigned areas (when volunteer moves to different zone) - Update mobile number - Change role (promote SK to Sanchalak) - Mark as inactive (when

volunteer leaves)

Deactivating a Volunteer

When to Deactivate: - Volunteer is no longer serving - Volunteer moved to different program - Temporary leave of absence

How to Deactivate: 1. Edit volunteer 2. Uncheck "**Active**" checkbox 3. Save

Effect: - Volunteer cannot log in - Doesn't appear in SK assignment dropdowns - Existing assignments remain intact - Can be reactivated later without losing data

Creating City Sabha Event (Special Event Type)

City Sabha is a large-scale event involving multiple areas and mandals.

1. Go to **Events** page
2. Click "**Create Event**" button
3. Fill in event form:

Required Fields: - **Event Name:** "City Sabha" or custom name - **Event Type:** Select "Sabha" - **Mandal:** Select "Bal Mandal" or "Sishu Mandal" - **Date:** Event date - **Time:** Start time

For City Sabha: - **Area:** Select "All Areas" or multiple areas - **Location:** Central venue address - **Description:** Event details, special instructions

Optional Fields: - **Speaker:** Name of speaker (autocomplete) - **Duration:** Duration in minutes - **Max Attendance:** Expected headcount

1. Click "**Create Event**"

Attendance Tracking: - When area is "All Areas", attendance panel shows children from all areas - Use search to quickly find and mark attendance - Export attendance report after event

12. Troubleshooting

Issue: Study and Skill Fields Not Showing

Symptom: When adding a contact under Bal Mandal, Study and Skill dropdowns are missing.

Cause: Mandal fields are not enabled in configuration.

Solution: 1. Log in as Admin 2. Go to Admin → Areas & Mandals 3. Scroll to Mandals section 4. Find "Bal Mandal" row 5. Check boxes for: Study, Skill, Standard, Hobby 6. Or click "Ask everything" button 7. Repeat for "Sishu Mandal"

Verification: - Go to Contacts → Add contact - Select "Bal Mandal" - Verify all fields now appear

Issue: Sishu Mandal Not in Dropdown

Symptom: When creating a contact, only "Bal Mandal" appears in Mandal dropdown, not "Sishu Mandal".

Cause: Sishu Mandal document doesn't exist in Firestore.

Solution: 1. Run script: `node scripts/create-sishu-mandal.js` 2. Script creates Sishu Mandal with all fields enabled 3. Refresh browser 4. Verify "Sishu Mandal" now appears in dropdown

Alternative Manual Creation: 1. Firebase Console → Firestore Database 2. Go to `mandals` collection 3. Add document: - `name` : "Sishu Mandal" - `code` : "SHM" - `gender` : "Male" - `fields` : (map with all fields set to `true`)

Issue: Standard Not Auto-Assigning Mandal

Symptom: When selecting "3rd" standard, mandal doesn't change to "Sishu Mandal".

Cause: Auto-assignment logic only triggers when standard changes, not on initial selection.

Expected Behavior: - **Create new contact:** Select standard first, then mandal auto-sets when you tab out - **Edit existing contact:** Change standard from 5th to 3rd → mandal auto-changes to Sishu

Workaround: - Select standard dropdown - Choose standard (e.g., "3rd") - Click outside dropdown or press Tab - Mandal field updates automatically

Issue: SK Cannot See Assigned Contacts

Symptom: SK logs in but "My Contacts" page is empty, even though batches were generated.

Cause: One of these: 1. SK volunteer doesn't have `view_assigned_contacts` permission 2. SK's areas don't match contact areas 3. Contact's `samparkKaryakartaName` doesn't match SK's name exactly

Solution:

Check Permissions: 1. Admin → Roles 2. Find SK role 3. Verify ☒ `view_assigned_contacts` is checked 4. Save if modified

Check Areas: 1. Admin → Volunteers 2. Find SK volunteer 3. Verify assigned areas match contact areas 4. Add missing areas if needed

Check Name Matching: 1. Admin → Volunteers → Edit SK 2. Note exact name spelling (e.g., "Rajesh Kumar") 3. Contacts → Find assigned contact 4. Edit contact → Sampark Karyakarta field 5. Verify exact name match (case-sensitive)

Issue: Bal Mandal Dashboard Not Visible

Symptom: "Bal Mandal" link doesn't appear in sidebar navigation.

Cause: Volunteer doesn't have `manage_events` permission.

Solution: 1. Admin → Roles 2. Find volunteer's role 3. Check box for ☒ `manage_events` 4. Save role 5. Have volunteer log out and log back in 6. "Bal Mandal" link now appears in sidebar

Issue: Observer Attendance Panel Missing

Symptom: When viewing event, only regular attendance panel shows, no observer panel.

Cause: One of these: 1. Event mandal is not "Bal Mandal" or "Sishu Mandal" 2. No volunteers with program "Bal Mandal" and role "Nirikshak" or "Sant" exist

Solution:

Check Event Mandal: 1. Edit event 2. Verify Mandal is "Bal Mandal" or "Sishu Mandal" 3. Save

Create Observer Volunteers: 1. Admin → Volunteers 2. Create volunteer with: - Role: "Nirikshak" or "Sant" - Program: "Bal Mandal" - Status: Active 3. Refresh event page 4. Observer panel now appears

Issue: Hobby "Other" Text Field Not Appearing

Symptom: Selected "Other" from Hobby dropdown but text field doesn't show.

Cause: Browser didn't detect the change event.

Solution: - Click outside the dropdown after selecting "Other" - Or press Tab key - Text field should appear below dropdown - If still not working, refresh page and try again

Issue: Standard Promotion Not Working

Symptom: Clicked "Execute Standard Promotion" but nothing happened or error occurred.

Possible Causes: 1. Insufficient Firestore permissions 2. Too many contacts (exceeds batch limit) 3. Network timeout

Solution:

Check Permissions: - User must be Admin or have Nirdeshak role - Check Firebase Console → Firestore → Rules - Verify update rules allow bulk writes

Check Contact Count: - Standard Promotion page shows preview count - If > 5000 contacts, promotion may timeout - Contact system administrator for manual migration

Try Again: 1. Refresh page 2. Click "Execute Standard Promotion" again 3. Wait for success message (may take 30-60 seconds for large datasets)

Manual Promotion (if automated fails): 1. Export contacts to CSV 2. Use spreadsheet to update standard column (LKG→UKG, 1st→2nd, etc.) 3. Use import feature to re-import updated CSV

Issue: VCF Export File Not Opening

Symptom: Downloaded .vcf file but phone won't import it.

Cause: VCF format incompatibility with some phone models.

Solution:

iPhone: - Email the .vcf file to yourself - Open email on iPhone - Tap attachment - Choose "Add All Contacts"

Android: - Copy .vcf file to phone storage - Open Contacts app - Menu → Import → From storage - Select .vcf file

Alternative: - Open .vcf file in text editor - Copy contact details manually - Or use Google Contacts web interface to import

Issue: Dashboard Metrics Not Updating

Symptom: Added new contacts but dashboard still shows old count.

Cause: Browser cache or query hasn't refreshed.

Solution: 1. Click area filter dropdown at top-right 2. Select different area, then select back to original 3. Metrics refresh with new data 4. Or hard refresh browser (Ctrl+Shift+R / Cmd+Shift+R)

Issue: Cannot Delete Contact

Symptom: Clicked delete but contact still appears.

Cause: Contact is linked to a household or has attendance records.

Solution:

Remove from Household First: 1. Go to Households page 2. Find household containing contact 3. Remove contact from household 4. Return to Contacts page 5. Delete contact

Attendance Records: - Contacts with attendance history cannot be deleted (data integrity) - Mark contact as inactive instead - Or edit contact and add note explaining why inactive

Appendix A: Quick Reference Tables

Standard to Mandal Mapping

Standard	Auto-Assigned Mandal
LKG	Sishu Mandal
UKG	Sishu Mandal
1st	Sishu Mandal
2nd	Sishu Mandal
3rd	Sishu Mandal
4th	Sishu Mandal
5th	Bal Mandal
6th	Bal Mandal
7th	Bal Mandal
8th	Bal Mandal

Note: 8th standard students transfer to Yuvak Mandal during yearly promotion.

Hobby Options

Available options in Hobby multi-select dropdown:

- Sports
 - Music
 - Dance
 - Drawing
 - Reading
 - Cricket
 - Football
 - Singing
 - Cooking
 - Technology
 - Photography
 - Yoga
 - Storytelling
 - Arts & Crafts
 - Gaming
 - **Other** (opens free text field)
-

Permission Matrix

Permission	Admin	Nirdeshak	Sanchalak	Nirikshak	SK	Sant

Appendix D: System Limits & Best Practices

Firestore Free Tier Limits

Daily Limits: - Reads: 50,000 per day - Writes: 20,000 per day - Deletes: 20,000 per day

Best Practices to Stay Within Limits:

1. **Use Dashboard Filters:**
2. Don't load all areas at once
3. Filter to specific area when possible

4. **Batch Operations:**

- 5. Generate batches for one area at a time
- 6. Don't run multiple batch generations simultaneously

7. **Standard Promotion:**

- 8. Run once per year only
- 9. Backup database first
- 10. Run during off-peak hours

11. **Event Attendance:**

- 12. Mark attendance during event, not after
- 13. Use search to find contacts instead of scrolling full list

14. **Dashboard Refresh:**

- 15. Dashboard auto-loads on page visit
- 16. Don't refresh repeatedly
- 17. Use area filter to reduce query size

Recommended Data Entry Workflow

Weekly Routine:

Monday: - Review dashboard metrics - Identify contacts without SK assignment - Generate batches for unassigned contacts

Tuesday-Saturday: - SKs add notes on family contacts throughout week - Update mobile numbers if changed - Mark any contacts as inactive if moved away

Sunday: - Create week's Sabha event - Mark attendance during Sabha - Observer attendance marked by end of event

Monthly: - Review Standard Breakdown metrics - Check SK coverage percentage (target: 100%) - Export VCF for new SKs joining

Yearly (June/July): - Backup Firestore database - Run Standard Promotion workflow - Transfer 8th students to Yuvak - Generate new batches for promoted 5th standard students

Security Best Practices

1. **Volunteer Accounts:**

2. Use strong passwords (min 8 characters, mixed case, numbers)
3. Don't share login credentials
4. Log out after each session on shared computers

5. **Mobile Numbers:**

6. Verify mobile numbers before saving
7. Don't use fake numbers for testing (use 9999999999)
8. Update immediately if parent changes number

9. **Photos:**

10. Get parent permission before uploading child photos
11. Don't share photos outside organization
12. Use "Add photo later" if permission pending

13. **Notes:**

14. Keep notes professional and factual
15. Don't include sensitive medical/family information
16. Use notes for sampark tracking only

17. **Exports:**

18. VCF exports contain phone numbers - handle securely
19. Don't share exported files via public channels
20. Delete old exports from device after importing

Support & Contact

For Technical Issues: - Email: Manish Kumawat (manishkumawat@example.com) -
Document Issues: Check Troubleshooting section (Section 12)

For System Training: - Request training session for new volunteers - Group training available for area coordinators

For Feature Requests: - Submit via Admin panel feedback form - Or email technical team with detailed description

Document Version: 1.0

Last Updated: September 2, 2026

Prepared By: System Development Team

Approved By: Manish Kumawat

End of Manual

Next Steps: 1. Complete one-time setup (Section 4) 2. Create first volunteer accounts 3. Train Sanchalak and SKs on contact entry 4. Run first batch generation 5. Create first Sabha event and mark attendance 6. Review dashboard metrics weekly

Happy Managing! 🙌
